

## **Supplementary Material 2. Nomenclature of the mutations in our article**

The nomenclature of the mutations in Supplementary Table 1 in the online-only Data Supplement is based on the National Center for Biotechnology Information (NCBI) reference sequences NM\_182961 and NM\_033071. We chose NM\_182961.3 as a result of MANE Select ([https://www.ncbi.nlm.nih.gov/refseq/refseq\\_select/](https://www.ncbi.nlm.nih.gov/refseq/refseq_select/), accessed on September 17, 2022).
